— POSITIONS —

Postdoctoral Fellow 2026 (Mar) – Now	Laboratories of Matthias Nau and Freek van Ede Vrije Universiteit Amsterdam, NL
Postdoctoral Fellow 2025 – 2026 (Mar)	Laboratory of Freek van Ede Vrije Universiteit Amsterdam, NL
PhD (Cum laude, top 5% in NL) 2020 – 2025	Laboratory of Freek van Ede Vrije Universiteit Amsterdam, NL
Master 2018 – 2020	Laboratories of Jan Theeuwes and Christian Olivers Vrije Universiteit Amsterdam, NL

— AWARDS —

2025 **Cum laude** (top 5% in NL), PhD

2022 **Best Poster Award**, European Conference on Eye Moments (ECEM)

— PUBLICATIONS —

10. **Liu, B.**, Alexopoulou Z. S., Siyang K., Zonneveld A., & van Ede, F. (2026) Sparse spatial scaffolding for visual working memory. *The Journal of Neuroscience*
9. van Ede, F. & **Liu, B.** (2026) Brain leakage exposes covert cognitive computations in bodily movements. *Trends in Cognitive Sciences (Spotlight)*
8. **Liu, B.** & van Ede, F. (2025) Concurrent selection of internal goals and external sensations during visual search. *Science Advances*
7. **Liu, B.**, Siyang K., & van Ede, F. (2025) Microsaccades strongly modulate but do not cause the N2pc EEG marker of spatial attention. *PLOS Biology*
6. **Liu, B.**, Alexopoulou Z. S., & van Ede, F. (2024) Attentional shifts bias microsaccade direction but do not cause new microsaccades? *Communications Psychology*
5. **Liu, B.**, Alexopoulou Z. S., & van Ede, F. (2024) Jointly looking to the past and the future in visual working memory. *eLife*
4. **Liu, B.** & van Ede, F. (2024) High-level visual cognition deep down in the brain. *Trends in Cognitive Sciences (Spotlight)*
3. **Liu, B.**, Nobre, A. C. & van Ede, F. (2023) Microsaccades transiently lateralise EEG alpha

activity. *Progress in Neurobiology*

2. **Liu, B.**, Nobre, A. C. & van Ede, F. (2022) Functional but not obligatory link between microsaccades and neural modulation by covert spatial attention. *Nature communications*
1. **Liu, B.**, Li X., Theeuwes J., Wang B. (2022) Long-term memory retrieval bypasses working memory. *NeuroImage*

— TALKS

2026	Psychologie und Gehirn (PuG), Germany
2026	Vision Science Society (VSS) conference, USA
2024	Working Memory Symposium (WMS) online meeting
2023	Cognitive Neuroscience Society (CNS) conference, USA
2022	Vision Science Society (VSS) conference, USA
2021	Working Memory Symposium (WMS) online meeting

— RESPONSIBILITIES

2023-2024 Amsterdam	PhD Representative , Cognitive Psychology Section, Vrije Universiteit
2021-2025 Amsterdam	Teaching Assistant , Cognitive Electrophysiology, Vrije Universiteit
2022-2025. Amsterdam	Laboratory Teaching Assistant , EEG Experiment, Vrije Universiteit

— SUPERVISION OF STUDENT

2026	2 Master students (Marjet Breedijk, Korosh Rajaei)
2025	2 Master students (Nara Alshawareb, Roos Kallansee)
2024	1 Master student (Siyang Kong)
2023	2 Master students (Eleni Evangelidi, Joelle Simon)
2022	2 Master students (Ruiheng Zhang, Sofia Alexopoulou)

— REVIEW

Nature Human Behaviour | Journal of Neuroscience | Nature Communications | Communications Psychology | Imaging Neuroscience | Journal of Cognitive Neuroscience | Journal of Vision | Memory and Cognition | attention, perception, and psychophysics

— SKILL

Human neuroscience: EEG, eye tracking, behavioral experiments, basic experience with fMRI

Computational analysis: time-frequency analysis, multivariate decoding, representational similarity analysis

Current computational project: contrastive learning / CEBRA, HMM / state-space modeling

Programming: Python, MATLAB, MNE-Python, Git/GitHub

Experimental design: attention, working memory, task demands, naturalistic stimuli/experiment
